Address: Sr.No.25/5B, NarayanilIndustrialEstate, SinhgadRd, near
Sainath Ice Factory, Nanded Fata, Pune, Maharashtra 411041.

Established-2000

WHO WE ARE

Welcome to VEEJAYAGROUP.

Founded by Mr. Atul Tikone in 2000, Veejaya Group was established in Pune, Maharashtra.

Our range of electroplating plant and related processes enable us to provide a wider range of services from pre-production samples to full volume production conforming to O.E.M, national and international standards.

As one of the Pune's leading suppliers of electroplating services, our team is here to help. We have decades of experience delivering electroplating services and as a result, we can accommodate a wide range of requirements for many different industries. Two of the main industries that we work with are the Industrial & Interior.

Founder & Owner Mr. Atul Tikone performing decorative work such as plating Architectural & Interior home decor items and polishing statues. This experience provided the foundation for what would become a long, successful career in the metal finishing industry.

While we're certainly proud of our long, successful history as surface treatment experts, we're also excited about what the future holds. As part of our transition from a traditional plating shop to a specialty metal solutions and surface treatment provider, we're currently investing more in acquisitions, facility upgrades and technical updates. We're not expecting trailer loads of products for service. Instead, our focus will continue to be on low frequency and smaller scale in an effort to perform higher value-add, higher caliber employee-driven work that competing metal finish companies cannot match.

Founderofthecompany

Mr. Atul K. Tikone
Founder and Owner

OUR MISSION

The mission of Veejaya Group is to effectively apply high-quality Electroplating & Coatings to a wide range of materials to meet the demands of our Interior and industrial customers.

OUR VISION

To provide expertise in metal and non metal finishing solution by electroplating & coating services at reasonable price through an integration of Man, Machine, Method, Medium & Management for Industrial, Interior Applications and many more.

OUR HISTORY

Started on 2000 in Pune, India. Primarily focused on providing metal finishing services & Zinc plating. Eventually we started other service processes like powder coating, gold plating, polishing, buffing, interior and articles services to most of the industries

OUR JOURNEY

2000

Started with specializing in Zinc plating in colors yellow, blue, black & Zinc Cold Galvanizing.

2002

In addition to Zinc plating we have added nickel chrome plating and buffing, ABS plating, Tin Plating.

2007

Added black oxidizing, Anodizing, Electropolishing, name plates, Buffing Mirror, Mat, & Crash Finish, Phosphate (zinc & manganese)

2016

In addition to our earlier services we started Hard Chrome, satin Chrome, Glass Bed Blasting, laser Marking, Electroless Nickel (E.N.P), Dull Nickel Plating (All Metal), with 15 workers.

2018

We started Powder Coating of all materials (metal) and provide services in Interior decorated Products. All Metal & Non Metal Gold, Silver, Brass, Copper (Antique), wood, Acrylic, Stone, Marble, Leaf, Fiber, Plastic & Gold Name Plating, Silver Name Plate All Types Of Statue

People Strengths – 98 people – from 2000 to 2025.

 - MARBLE & OTHER MATERIAL.

Interior Decoration

Why Plating is required?

Plating is required to protect metal from rust. Rust is the greatest enemy of just about any type of metal, and its corrosive effects can be devastating.

Benefits of Plating

Plating Adds Properties to Metals

Improves Quality of the Manufacturing Processes

Plating Enhances Appearance

Low Cost Alternative Plating

Indoor and Outdoor Application

Indoor Application for plating includes various products like center table, side table, dining chair, dining table, sofa leg, cupboard handle, decorative item, study table, plumbing fittings, etc.

Outdoor application for plating includes products like name plates, banners, door handle, sliding frame, street light pipe, etc.

What is Coating

A coating is a covering that is applied to the surface of an object. The purpose of applying the coating may be decorative, functional, or both.

Benefits of Coating

Coating Prevents Rust and Corrosion, Improving Product Aesthetics

Used to Make Non-Stick Products

Keeps Low Friction to Keep Surfaces Lubricated

Abrasion Resistance Coatings Add Durability

Used for Electrical Insulation

Indoor and Outdoor Application

Indoor Application for coating includes various products like center table, side table, dining chair, dining table, sofa leg, cupboard handle, decorative item, study table, wall clock, etc.

Outdoor application for coating includes products like doors, tree pot, name plate, banners, sliding frame, street light, etc.

GoldenCoating

- Application – All MS and SS Metal, Aluminium, Copper, Brass, Nickel, Silver and All Non-Metals like Fiber, Sheraboard, MDF, Century Ply, Cement Sheet, Etc.
- Shelf Life – 5 Years

Stone Finishing Coating

- Application – All MS and SS Metal, Aluminum, Copper, Brass and All Non-Metals like Fiber, Shera board, MDF, Century Ply, Cement Sheet, Etc.
- Shelf Life – 5 Years

WoodFinishingCoating

- Application–AllMSandSSMetal,Aluminum,Copper,BrassandAllNon-MetalslikeFiber,Sheraboard,MDF,CenturyPly,CementSheet,Etc.
- ShelfLife–5Years

These are Some Examples of Non Metal Finishing

- MDF Coating
- Sheraboard Coating
- POP Sheet Coating
- Cement Sheet Coating
- ABS Coating
- Fiber Coating
- Metal Coating
- Stone Coating
- Wood Coating
- Rubber Coating
- Foam Sheet

QUALITY ASSURANCE

Our Product quality and safety is under control line every process of the production.

Equipments for Quality Check for each and every process:-

- **FISCHERSCOPEX-RAYXAN-515**
- Digital Coating Thickness Gauge (Ferrous).
- Digital Coating Thickness Gauge (Non-Ferrous).
- Megacheck thickness meter (Ferrous & Non-Ferrous)
- Micrometer (Baker) 25 to 50 mm.
- Micrometer (Baker) 0 to 50.
- TDS Meter Micrometer 0 to 25 mm.
- Micron Gauge (Thickness meter) - (Ferrous)
- Micron Gauge (Thickness meter) - (Non-Ferrous)

SALT SPRAY MACHINE

Our Product quality and safety is under control in every process of the production

- Salt spray chambers are useful testing equipment that can simulate and accelerate the corrosive effects of salt-laden environments on various materials and products.
- They are widely used to evaluate the durability and corrosion resistance of items exposed to harsh conditions, such as coastal or marine environments
